7<sup>th</sup> October 2025

**Dear Hiring Manager,**

I am writing to express my interest in the Java Full Stack Developer role at your organization. As a passionate and dedicated developer with hands-on experience in building responsive web applications, I bring a strong foundation in Java, web technologies, and database management.

During my academic journey at Chalapathi Institute of Engineering and Technology, I have developed and deployed multiple full-stack projects, including a Library Management System and an Employee Management System using technologies such as Java, Hibernate, SQL, HTML, CSS, and JavaScript. My exposure to tools like Maven and frameworks like Spring Boot has enabled me to build scalable and maintainable applications. I have also completed virtual internships with Google and AWS Academy, which enhanced my understanding of Android development, data engineering, and AI/ML concepts.

I am confident in my ability to contribute effectively to your team, thanks to my quick learning ability, strong problem-solving skills, and commitment to delivering high-quality solutions. I am eager to apply my skills in a professional setting and grow alongside a forward-thinking organization.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team.

**Sincerely,**

Nagabhirava Hima Varsha
