Career Objective

Motivated and detail-oriented Computer Science student specializing in Artificial Intelligence and Machine Learning, seeking an entry-level opportunity to apply my technical skills, learn from industry professionals, and contribute to innovative AI-driven solutions.

Area of Expertise

- Web Development
- Python Developer
- Data Structures & Algorithms

EDUCATION

Bachelor of Technology in

Chalapathi Institute of Engineering and Technology with 7 CGPA.

April 2023 – Jun 2027

Intermediate(MPC) in

Sri Chaitanya junior College with 84.6%.

April 2021 – Jun 2023

SSC in

Ushodaya English Medium School, Chetana,Chowdaram with 85%

April 2020 – March 2021

Technical skills

- **Web Technologies:** HTML, CSS, Bootstrap, JavaScript
- **Programming Languages:** Java, OOPs, Python, Java Script
- **Databases:** MySQL

Projects

1. SIMPLE CALCULATOR: | [LINK](#)

Description:

A simple, responsive web-based calculator built using HTML, CSS, and JavaScript. It performs basic arithmetic operations with a clean UI and interactive buttons for user-friendly functionality. Includes clear functionality, real-time input display, and mobile-friendly layout.

Technologies used: HTML, CSS, JavaScript

2. DIGITAL CLOCK: | [LINK](#)

Description:

A dynamic and responsive analogue and digital clock web application developed using HTML, CSS, and JavaScript. The clock displays real-time updates with smooth needle animations for the analogue interface and precise digital time rendering. It features a toggleable dark and light theme, enhancing visual appeal and accessibility for diverse user preferences. The design is fully responsive, ensuring compatibility across desktops, tablets, and mobile devices. The application utilizes CSS transforms and transitions for a polished UI, while modular JavaScript functions handle time calculation and DOM manipulation.

Technologies used: HTML, CSS, JavaScript

Core Competencies

- Skilled in Microsoft Office Suite with a typing speed of 62 WPM and 97.8% accuracy
