

CAREER OBJECTIVE

To leverage my skills and training in contributing to the organization's growth while continuously enhancing my expertise in emerging technologies, fostering both personal and professional progress

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech.	ECE	Sreenidhi Institute Of Science and Technology	2021-2025	9.03
HSC	Mathematics, Chemistry, & Physics	Narayana Junior College	2021	990
SSC	-	NSR High School	2019	9.7

TECHNICAL SKILLS

- **Programming Languages:** C,java,python, JavaScript, HTML, CSS
- **Core Skillset:** Data Structures & Algorithms, React Js
- **Tools:** VS Code, GitHub, TOSCA, Hybris

PROJECTS

- **Automated Purchase Flow Testing of Demo Web Shop Using TOSCA Tricentis**
 - This project focuses on automating the end-to-end purchase flow of the Demo Web Shop application using TOSCA Tricentis. It validates key functionalities such as product selection, cart operations, checkout, and order confirmation through model-based test automation.
- **Sudoku Solver using backtracking**
 - The Sudoku Solver using backtracking is a project that focuses on solving the classic 9x9 Sudoku puzzle using a recursive algorithm. It systematically fills empty cells by trying valid numbers and backtracks whenever a conflict arises, ensuring that the final solution adheres to Sudoku rules. This project highlights the use of constraint satisfaction and algorithmic logic to solve complex grid-based problems efficiently.
- **Smart Irrigation System using IOT**
 - The Smart Irrigation System using IoT is designed to optimize water usage in agriculture by automating irrigation based on real-time environmental data. It uses sensors to monitor soil moisture, temperature, and humidity, and controls water flow through connected devices, ensuring efficient and timely watering

Experience

- **Cognizant Technology Solutions (JULY 2025 - Present)**

Developed and executed automated test cases for SAP Hybris-based e-commerce workflows using TOSCA Tricentis.
Validated key functionalities including product search, cart operations, checkout, and order management.
